Randy,

Just some feedback to guys that were out here working, they did a great job, showing their patience with our permitting system and getting the job done in a safe

and timely manner. This was the first time something like this has taken place her at our site. Be sure and pass this on to the workers. Looking forward next year.

Now it is up to you to make sure we complete this work before April 1st, 2012.

Stay in touch

Thanks,

Lonnie Wood

Just wanted to say Thank You for allowing us to work with you and Exxon.
I know you went to over and above just to get us in, but we so appreciate all your help and look forward to working with you again in the future.
